

```
#include<stdio.h>
int main(){
    int basic;
    float da,hra;

    printf("Enter basis salary :");
    scanf("%d", &basic);

    da = (0.74*basic);
    hra = (0.15*basic);

    printf("Gross salary = %0.2f", basic + da + hra);

    return 0;
}
```
