```c
#include<stdio.h>
int main(){

    int num1, num2;

    printf("enter 2 number : ");
    scanf("%d %d", &num1, &num2);

    switch(num1>num2){
        case 0:
            printf("%d is maximum", num2);
            break;

        case 1:
            printf("%d is maximum", num1);
            break;
    }

    return 0;
}
```
